RE: Transmittal of Final Application Materials for a  
Conditional Use Permit and Surface Mining/Reclamation Plan;  
Property Owners: Rowland and Catherine Twisselman  
California Valley, CA (APN: 072-074-007)

Dear Mr. McKenzie:

This letter transmits the complete application and design documents for a Conditional Use Permit and Surface Mining/Reclamation Plan being proposed in association with the SunPower California Valley Solar Ranch project (SLO Planning Number DRC2008-00097). Since this project is to be included in the EIR being prepared for the SunPower project I will be serving as the agent for the application. We look forward to answering any questions you might have about the application materials and would be willing to set up a conference call at your earliest convenience with the project engineer, geologist and environmental specialist to assist in your review of the application.

Application fees in the amount of \$20,938.50 have been wired to the County of San Luis Obispo last week in the same manner as we previously have paid other fees and environmental review charges associated with the California Valley Solar Ranch project.

We have transmitted with this letter the following documentation:

- Aggregate Resource Evaluation (45 pages)
- Reclamation Plan Application (29 pages)
- General Application Form (8 pages)
- Financial Assurance Cost Estimate (8 pages)
- Twisselman Quarry Viewshed Map
- Response to your questions of April 15, 2009

Draft Application Materials

July 13, 2009

Page 2

- Information Disclosure Form
- Performance Agreement
- Notarized signatures on all applicable forms

As always we look forward to working with you as we complete this application and process it through the County development review process.

Sincerely,

Brian Parker
